## Recreation, Minorities Cited In Area Delinquency Report

Minority problems and lack of recreation in Washington Township are two points featured in a grass-roots survey released this week by the Alameda County Delinquency Prevention Committee.

Staffed by citizens of this and other areas, and guided by the county's juvenile courts and probation department, the group submitted a many-pronged report and series of recommendations.

**Among the local observations, one of the most pertinent was made by a subcommittee on group-work headed by Father Ralph Duggan of Decoto, and including Mrs. Bernie Joseph of Decoto, Mrs. Edith Mackintosh of Niles, and Mrs. George Scammon of Irvington. Said the report, in part:**

"Southern Alameda County, besides presenting the usual problems of a quickly growing community, has an additional important problem which none of the group-work agencies seemed to cover; namely, the existence of a sizeable racial minority group. This program consists of Mexicans, primarily, and is to be found in Hayward, Russell City, Decoto, Alvarado, Niles, and to a lesser degree, Newark.

"The conclusions of our committee were:

"(a) That this group presents many problems peculiar to itself in each of the various fields studied by our survey;

"(b) As a consequence of Point (a) above, this group should be viewed and studied separatedly; and

"(c) Much help in doing this could be gained from the Los Angeles Minority Group Work Survey and the more recent findings of the joint San Francisco-Oakland Latin-American study."

Reported another subcommittee on recreation which included Mrs. John Whipple of Niles:

"Alvarado: Many are not interested in community activities. Furthermore, many of the youngsters in this area find it necessary to go to work seasonally, and therefore the kind of program which might be set forth in most communities during the summer is of no value here because the youngsters are not available.

**"An additional problem is that there is not enough leadership among the minority groups.**

"Any program that might be developed here should take the form primarily of a gym or a youth center. Representatives interviewed felt that a physical recreation program would have the greatest appeal to the youth of Alvarado.

"Centerville: There is no organized recreation program. There is plenty of equipment available on the school grounds, but no supervision. One of the greatest needs of the area, particularly in the summer when it gets hot, is a swimming pool. Many parents at present find it necessary to transport their children to the Hayward swimming pool. Centerville also faces the fact that children work during the sum-

## ELLSWORTH TRACT GETS '3D CHANCE' IN WATER ROW

The Alameda County Water District on Wednesday gave Ellsworth Orchard residents another chance to discuss a compromise which would end free water in the Niles suburb.

If the offer is not taken, warned President W. D. Patterson, proceedings will be started to cut off water deliveries in excess of 125 gallons per home per day.

**No deadline was set by Patterson, just as none was set in letters addressed to some 90 home owners in April and again three weeks ago.**

However, Patterson's board of directors will meet in special session again next week, he said, and there was strong indication that legal proceedings may be instituted then by Legal Counsel George Clark. If the tract dwellers continue to ignore the plea, that is.

Letters from the district have informed the Ellsworthians that they are entitled to only 18,000 gallons per day, and are sometimes using as much as 150,000.

**"There are a lot of people up there who are poorly-informed and badly-advised," commented Director Jack Prouty. "I wish I could meet with them and tell them the truth."**

The defiant tract dwellers, or at least some of them, caucused last week and decided to ignore the district's warnings. They claim they bought free water rights with their lots, rights which were given to the Ellsworth Estate 65 years ago.

Turning to less controversial matters, the directors also:

**1. Told Contractor Dan Bodily he will have to stand half the cost of a $26,000 water tank if he wants to build 65 low-cost homes in Canyon Heights. The tank would add a needed 108,000 gallons to district storage.**

2. Voted to permit the Shinn Estate to drain storm waters into the district's percolation pit (which it leases from the Shinns) so the Estate can proceed with contemplated subdivision plans for its 35-acre orchard on the north bank of Alameda Creek.

**3. Decided to discuss means of mending the 130-foot break in the pit's levee next week, after Prouty warned fall rains may be disastrous.**

4. Agreed to pay up to $1000 to revamp district accounting procedure to separate water-conservation and domestic-distribution accounts.

## PAIR JAILED FOR BURGLARIES HERE

A stop-sign violation in Decoto yesterday led to the arrest of a pair of youthful brothers who, authorities say, burglarized a number of homes and stores in Washington Township.

Arrested after the stop-sign violation were James C. Newton, 19, of 1282 Ithica, Hillview Crest, and Daniel D. Newton, 20, of Hayward, CYA parolee.

Deputies Willam Hildebrand and Robert Swaynie said the pair gave conflicting stories of their whereabouts, and finally James admitted he and his brother burglarized the Kennedy Ranch near Hillview last June, Ray's Market in Decoto, and a parked car in Decoto.

Officers are questioning the pair about other burglaries here.

### NILES POSTAL JOB

Applications will be taken up to September 4 for the position of rural mail carrier at Niles, Postmaster Ed Enos announced this week. A written test will establish an eligibility list for the job.

**ON THE MAP . . . That's where directors of the Union Sanitary District want to put the heart of Washington Township, industrially and residentially speaking. Headed by George Coit (right), the directors last week set a $250,000 bond election for September 15 to get public backing for expansion of sanitary facilities and care for expected growth. With Coit are Directors George Burr (left) and H. L. Scott.** (Register Photo)

## CHARGE NEWARK CIVIL DEFENSE POST FUNDS 'SNARLED' BY COUNTY, U. S.

Newark's Civil Defence plane-spotter post this week was pictured as a poor financial stepchild of Alameda County and Federal officialdom.

Ken Foster, post supervisor, told the local Chamber of Commerce:

**(1) It took three months to get the county to pay an $11 phone bill.**

2. Water, lights and heating bills are still officially unpaid.

3. The county has declined to accept liability for accidents on the privately-owned site as it did during the last war.

**"If it isn't valuable enough to pay for, then I think we're being kidded," was the comment of Gordon Cotton.**

Foster explained the county is supposed to give financial support to the post until money is forthcoming from the Air Force. Foster said Air Force funds "are snarled up in red tape between Sacramento and Washington."

**The post has been manned on a 24-hour basis by local volunteers for the past month."**

## QUARRY PROTESTED BY HOMEOWNERS

A petition, signed by 85 homeowners in the Ellsworth Orchard to Supervisor Chester E. Stanley and Niles Manor subdivisions, protesting the proposed quarry in the hills east of Niles, was forwarded this week.

The petition read:

**"We, the following undersigned homeowners do protest the proposed quarry on the hills adjacent to Ellsworth Orchard as it would devaluate our property and cause a safety and health hazard to our children."**

A petition was also forwarded to the Niles school board, in an effort to enlist that body's support in restraining digging operations by Norman Rose, rancher on whose property the excavating is taking place. The proposed new school site is adjacent to the quarry operations and parents feel that a quarry on the site will be a hazard to the children.

**Rose has denied that he is digging a quarry, claiming that he is removing earth to improve a road behind Ellsworth Orchard.**

## NO RELIEF FROM DRIVERS' ORDEAL

**Township motorists who want to apply for drivers' licenses are doomed to spend the day in Hayward for years to come, it seemed this week.**

**Last month the Township Chamber of Commerce tried again to have an examiner stop off in Centerville once a week to prevent the inconvenient trek to the Hayward office of the Department of Motor Vehicles. But this week Secretary-Manager Eugene Manning exhibited the following letter signed by the department's chief of the division of Field Operation, E. K. Ball:**

**"I sincerely regret to inform you that, for the present at least, our employes in the Bay Area are so overburdened that it is physically impossible to comply with your request."**

**Ball added "expanded services" would require funds from the Legislature. He suggested the Township Chamber "submit figures" to support his requests for additional men in his 1953-54 budget.**

## SEPT. 11 DEADLINE FOR REGISTERING

Unregistered voters who want to cast their ballot for President in November were reminded today they must sign up by September 11.

Local registration places are (1) at the information desk in the County Building on the Niles-Centerville highway, and (2) at Marshall's Bus Depot in Decoto.

Prospective registrants must have lived one year in California and 90 days in the precinct in which they intend to vote.

### SEEK NEWARK LIGHT

The Newark Chamber of Commerce this week demanded a street light at Thornton and Mayhew Landing Road from the PG&E.

# Push Freeway Link Here

### County Spokesmen Demand Completion

Completion of the Eastshore Freeway from Mt. Eden to Warm Springs was demanded in Sacramento yesterday by a galaxy of Alameda County officials.

Headed by Supervisor Harry Bartell, the Alameda County Highway Advisory Committee made completion of the freeway a "must," along with several other "critical" projects, in a presentation before the California Highway Commission.

**Bartell's group stressed that (1) Alameda County's highway appropriations from the state were cut $4,000,000 last year in the face of tremendous population growth, and (2) a recent committee survey set State Highway deficiencies in the county at more than $240,000,000.**

Start of construction for the freeway was asked for 1953-54. The county spokesmen also asked that it be finished as rapidly as possible from San Jose to Warm Springs. They added that rights-of-way ought to be purchased as early as possible for the entire project.

**Bartell stressed that the county-wide program carries the endorsement of all local governmental and civic groups.**

Twenty projects were listed. Eleven of these, including completion of the freeway, were given top priority in the requests.

## 'SEWERS FIRST,' THEN COME ROADS

Residents of Canyon Heights who don't like their bumpy roads were told this week to put in sewers before the roads can be fixed.

**The Niles Chamber of Commerce issued the plea to the Canyon Heighters after reading a letter of complaint from Contractor Dan Bodily.**

Bodily was routing the letter to the Board of Supervisors via the local chamber. He declared two insurance companies refused to finance a 63-home subdivision he has planned for the area "because of the deplorable condition of the roads leading into and in Canyon Heights." He said the county had promised to fix them, but never had.

**Chamber Secretary Vernon Ellsworth interposed the county won't resurface the roads because "half the people up there haven't put in sewers yet and the county doesn't want to have to tear up the streets after they have paved them."**

Walter Chrysler commented that some of the Canyon Heighters cannot float loans to pay for sewers, and thus still are using septic tanks.

"It's up to them," Ellsworth replied. "They won't get streets until they do."

### Fall Hurts Child

Three-year old Becky Runnels, daughter of Mr. and Mrs. Harry Runnels of Magnolia Street, Newark, suffered a fractured skull Tuesday afternoon when she opened a door and fell from a car driven by her mother on Baine Avenue.

The child was first reported in critical condition at Highland Hospital where she was taken after the accident. She is said to be improving today.

### SPECIAL EDITION NEXT FRIDAY!

**Next Friday, August 29, the Township Register will be delivered to every home in Washington Township. This "full-coverage" edition is designed to celebrate the opening of school on September 8, to give merchants more readers for their "back - to - school" advertising, and to acquaint non-subscribers with the value of the Register as a means of finding out ALL the news about their home community.**

**Next Friday's Township Register will have a number of photographs and features about local schools. It will also be packed full of money-saving "specials" in advertised merchandise.**

**Don't miss it!**

## $8,000,000 NEW PLANTS HINGE ON BOND VOTE

Niles, Newark and Centerville have a chance at an $8,000,000 prize, but it all hinges on the September 15 sewer-bond election, the Centerville Chamber of Commerce was informed Monday.

**"I can't mention names," announced Eugene Manning, secretary-manager of the Township Chamber, "but several firms with a plant investment totaling more than $8,000,000 are seriously interested in locating here."**

Then, Manning told the Chamber lunchers:

"One of the first things they all want to know about is sewers. They have to have adequate disposal."

Manning urged a Chamber resolution backing the bond election now set for September 15. This poll would permit sale of $250,000 in Union Sanitary District bonds so the existing plant and line to the bay can be enlarged to accomodate new homes and industry.

**The election earlier had been set for September 12, but this week Board Chairman George Coit announced it will be consolidated with one on September 15, at which Directors H. L. Scott and Manuel Bernardo are standing for re-election.**

A resolution proposed by LeRoy Broun was passed unanimously. It calls the expansion program "a capital investment for the taxpayers of the district—an investment which will pay off in new industries which will shoulder a larger and larger share of all local taxes."

Broun and other Chamber members joined in urging the sanitary district to construct "not less than a 36-inch outfall ilne" to the bay. Only a 14-inch line—under pressure—now handles this job.

## U. S. PIPE STRIKE IN THIRD WEEK

A CIO Steelworkers strike at the U. S. Pipe and Foundry plant near Decoto entered its third week yesterday with union and management deadlocked over contract issues and no negotiations scheduled.

Seventy members of the Steelworkers Union started picketing the plant August 6 when contract demands, including wages, holidays, vacations and other working conditions were not met.

The union was certified bargaining agent at the plant last December after an NLRB election.

No further negotiating sessions are slated, according to a company spokesman, following an inconclusive one last Monday.

### Blood Donors Respond

There were 113 donors appearing at the Veterans Memorial Building in Niles last Monday to give their pints of blood. Mrs. Allan Walton, blood procurement chairman for the township, expressed satisfaction over the unusually large turn-out.

Names of donors will be printed in the Register in a future issue.

### State Lists Bars to Thornton Alternate

Hand-to-mouth working of the State Division of Highways have erected obstacles to relocation of the Thornton Avenue freeway "feeder."

Harold A. Summers, State highway engineer from San Francisco, told the Washington Township Chamber of Commerce Wednesday night:

1. The State figures it is cheaper to relocate nine homes and build two more traffic lanes on Thornton than it is to build a four-lane feeder several hundred yards to the north.

**2. Two subdivisions already have been planned around feeder routes on Jarvis and Thornton, and the State probably would hesitate to disturb them.**

Summers suggested the county zone rights-of-way along the proposed alternate route (which has been endorsed by Centerville and Newark representatives) to keep it free of buildings for the next five years, or until the Eastshore Freeway is completed in this area.

But County Planning Engineer John Jay Thomas, also attending the session, said he is "doubtful that this can be done, anticipating the pressures which will come from development in the neighborhood."

When Judge Allen G. Norris and other local representatives asked why the route through fields and orchards could not be taken instead of the one down settled Thornton, Summers replied:

**"The State hasn't the money to buy the rights-of-way now. I admit it would be cheaper in the long run, but because there aren't enough appropriations to go around, we often have to do things that aren't economical."**

However, Summers conceded, the Thornton question won't be settled until the State signs a freeway agreement with the county. One already is concluded as far south as the Alviso School.

Supervisor Chester E. Stanley, also present, agreed with Summers that the Township Chamber ought to write the county and state authorities asking that the alternate route be used.. But he also backed Thomas in his doubt that zoning would do the job of holding the route until the State is ready.

Under present plans, the new Freeway would cross Thornton just west of Blacow Road.

**Judge Norris suggested the letter be written in time to reach the proper authorities before they meet with the Collier Legislative Committee on Highways in San Francisco August 28. The members voted approval of Gordon Cotton's motion to include a request for an overall study of an east-west route between Centerville and Dumbarton Bridge.**

The meeting closed as President Allan Walton asked each member chamber to name delegates to work with Thomas and Bruce Michael of Warm Springs on overall Township planning and zoning.

## UNITED CRUSADE MUST SUCCEED, MICHAEL WARNS ROTARY

Drives like the United Crusade must succeed, Bruce Michael told the Niles Rotary Club last week, or else the federal government will stage expensive charity campaigns of its own.

**"Seven drives in Washington Township all failed to reach their goal last year," Michael commented. "Now we are uniting all seven to save expenses and workers' time. The United Crusade must succeed."**

Michael, Warm Springs rancher who is chairman of the Crusade's local speakers bureau, cited the example of Detroit, where scattered welfare campaigns netted $9,000,000 and a united appeal collected more than $11,000,000.

Local goal is approximately $20,000.

Answering questions from the audience, Michael declared:

**1. Washington Township campaign directors will continue to do their own budgeting, turning the budgets over to the East Bay United Fund for inclusion in the Alameda County total.**

2. Red Cross workers will be permitted to canvass non-contributors to the Crusade, although the Red Cross joined the Crusade this year. The Red Cross also may make emergency solicitations in cases of widespread disasters, as in the past.

3. The March of Dimes probably will join next year.

**4. Non-member drive solicitors should be told to have their organizations join the one-campaign Crusade.**

5. Industrial solicitation (by Oakland industrialists for big firms, by Peter Juhl of Niles for smaller ones) will precede the October 1 kickoff by two weeks "so nobody in the plants will be able to say he gave at home."

# MOUGHON NAMED IN $162,496 SUIT

Four suits filed in Oakland last week asked a total of $162,496 damages as the result of a June 15 auto crash that killed four members of a San Jose family.

Defendant is Raymond Lloyd Moughon, 46, Niles steel worker, now awaiting trial on four counts of manslaughter. He was the driver of one of the cars.

Dead were: Henry R. Bettencourt, 63; his daughter, Theresa, 23; his coursin, Mrs. Maria A. Ribeiro, 80; and grandson, David A. Augiar, 5.

Three suits were filed by Bettencourt's widow, Maria Julia, and the fourth by David's parents. They charged Moughon with carelessness and negligence.

# 'PRESSURE' CLAIM AGAINST NEWARK BANK RIVALS

Charges that "pressure" from rival banks is being used to keep the Central Valley Bank out of Newark were made Tuesday before the local Chamber of Commerce.

Paul Gygax, chairman of a committee to bring a bank to Newark, did not directly specify where the "pressure" came from when he made the accusation. But he said:

**"You can read between the lines. The State Banking Commission keeps wanting more assurance that there is enough money here. And the Central Valley people are up there twice a week giving it to them."**

Gygax said he asked the State bureau directly and was told no decision will be made until the commission chief returns next week from vacation.

**"I feel we'll get our bank," he prophesied. "But there's plenty of pressure being brought to bear.**

"Maybe we'll be asked to subscribe more stock, although I told Central Valley many people don't want to buy any more until they see the bank here."

# 'LADY' VANISHES— ON BURGLARY RAP

Clad in jeans and T-shirt in contrast to the flimsy ladies' garb in which he was captured, Joseph R. Valencia, 24, of Irvington, last week pleaded guilty to burglary of a Driscoll Road home.

Valencia, who told officers he wanted to see how female impersonators lived, appeared before Judge Allen G. Norris.

He admitted ransacking the home of Mrs. William Enos and stealing Mrs. Enos' best silk garments. Valencia was pursued when a neighbor surprised him filching women's clothes from a clothesline. He also admitted a prison record in Nebraska. He was ordered to appear in Superior Court.

# 'LURE' TRIO TO APPEAR TODAY

Charged with the "lure" robbery of a Warm Springs bar patron, two Niles girls and a Decoto war veteran were arraigned here last week.

Harold Prink, 23; Betty Giles, 20, and Shirley Ann Shepherd, 17, won continuances until today from Judge Allen G. Norris in order to obtain lawyers.

**Prink failed to gain a reduction in his $10,000 bail, however.**

All are accused of robbing Harold Santina, 46, of $160 on lonely Mill Creek Road. Santina said the girls, waitresses in a Niles cafe, lured him to a secluded spot, at which point Prink and another man appeared, clubbed him with a pistol, and took his money.

The second man is still being sought.

**TO STAND TRIAL**

Lawrence R. Rangel, 21, of Niles, last week was ordered to stand trial on charges of statutory rape involving a runaway 17-year-old San Francisco girl. Randel appeared before Judge Allen G. Norris.

Gas and electricity are cheap in California!

An impressive civic auditorium is the center of community life in San Jose

P. G. and E. home rates are far below U.S. average!

The cost of living has nearly doubled since 1940, but P. G. and E. domestic rates are actually lower than they were then! Nothing else you buy costs so little—does so much. Let P. G. and E.'s bargain gas and electricity do more of your work, bring you more of life's comforts.

Take SAN JOSE for example:
Typical residential gas and electric bill
In San Jose . . . . $8.69
In all U.S. cities of similar size* . . $16.02
* Average for the 20 U.S. cities outside California between 85,000 and 100,000 population. Based on a typical use of 100 kilowatt hours and 100 therms of gas per month.

Miss Caldeira is the daughter of Mr. and Mrs. Joseph Caldeira, is a graduate of Washington High School and has been employed by the Newark Pharmacy for the past seven years. Pfc. Tonn is with the 3rd Marine Division stationed at Camp Pendleton. His parents are Mr. and Mrs. Fred Tonn, also of Wisconsin. The couple plan to marry sometime next year when Tonn will complete his service in the marines. They will make their home in his home state.

**DIANE MENTO BETROTHED**

Her mother is the former Adele Steinhoff of Newark. The bride-elect is a recent graduate of the College of Holy Names. No definite date has been set as yet for the marriage.

**VOWS EXCHANGED**

On the evening of Friday, August 15, Frank Edwin Correia of Newark took Elaine Clara Borge of Irvington as his bride. The ceremony was performed by Rev. John Leal of St. Joseph's Church in Mission San Jose. Attending the couple were Melvin Raymond Correia, the groom's brother, and Miss Shirley Amaral. The bride chose a ballerina length white brocaded organdy dress with a finger-tip veil. She carried, with her white orchid, a white rosary and prayer book. The maid of honor wore a blue and white gown also of ballerina length.

The groom is the son of Mr. and Mrs. Frank D. Correia of Newark. The parents of the bride are Mr. and Mrs. Joseph Borge of Irvington. Mrs. Correia attended the wedding wearing a blue dress with white accessories. Mrs. Borge was attired in white with blue accessories. Both wore orchid corsages.

The reception following the wedding was held at the Mission Hall. The couple spent a short honeymoon in Santa Cruz. Frank, who is a platoon sergeant in the Army, returned Tuesday by plane to Fort Belvoir, Virginia, where he is stationed. Mrs. Correia Jr. will join him in Virginia at a later date.

**SUMMER STOCK PLAYERS**

The latter portion of summer is often a bit dull for the younger children in the neighborhood. However, Tuesday afternoon four little girls found an entertaining diversion which might be of interest to other youngsters. They staged a free show for all the small residents on Mulberry Street. Taking the parts as self-directors, stage hands and actors, Carol Bernardo, Shirley Bernardo, Lurlene Bayliss and Cheryl Ornellas sang, toe danced, tap danced and pantomined to the delight of their eager young audience. The theater was Bernardo's back yard, with blankets thrown over the clothesline for a stage backdrop. Sounds like a fine idea for a safe afternoon of play.

## He Sells Seashells

Annie and Frank Barner, whose place on the corner of the Niles-Mission highway and Fremont with the sign "Steaks Tender as a Widow's Heart" has attracted attention for several years, are now pulling up stakes (no pun meant) and are off to Cambria-by-the-Sea. Frank will go on making novelty gifts from seashells, a talent which has gained him considerable fame in this area. The couple has not run the restaurant here for over a year. They have devoted their full time to making gifts and selling them.

At Cambria, Frank hopes to find a new source of seashells.

The couple's property in Niles has been sold to the Rev. Antonio Muela, pastor of the Mexican Church here.

## Plans Trip to Texas

A guest of Mrs. Elizabeth Mendenhall last week was her sister, Mrs. Susie White of Plainville, Kansas. She returned home after a week's visit.

Mrs. Mendenhall is now making preparations to drive down to Houston, Texas, with friends from San Mateo. Her son, Everett, is in Houston working as a pilot for the Consolidated Steel Company.

"They warn me it will be very hot in Texas," said Mrs. Mendenhall, "but Everett has an air-conditioned apartment, and it won't be so bad."

She is planning to leave shortly after the first of September.

## Ladies' Guild Picnic

The annual fall picnic for the Ladies Guild of the Niles Congregational Church will be held September 17, it was announced this week by Mrs. Florence Myrick, president.

## RECREATION NEED LOCALLY CITED

(Continued from page 1)

mer. Consequently the kind of recreation program needed would vary from that needed elsewhere.

**"The principal problems of this community in the development of an adequate recreational program seems to be one of transportation, community education and lack of facilities.**

"Decoto: The only facility available at Decoto is the school grounds. There is no supervision. There is, however, a check-out system of recreation equipment. The Catholic Church in the community is at present building a community center which will be available to all of the children.

"Irvington: There is a Youth Center located in Irvington on the school grounds. It does not have any professional staff, is financed by Community Chest funds and had a budget of $250 in the last year. The Center faces the problem of a lack of funds.

**"Over and above this Youth Center which meets once a week, there is very little by way of organized recreation. There is no summer program for the elementary-age child. Swimming instruction is available only in the Hayward Plunge or through the use of self-instruction in private pools. Playground equipment is made available on Saturdays to the youngsters when the principal releases such equipment.**

"Newark: There is a Youth Center Association in town which was established by civic-minded persons, who provided funds for the building of a Youth Center. This project is maintained by annual money-raising activities.

**"This community has evidenced considerable interest in the development of a recreation district. While there are many interested persons, nothing final has been developed or reached concerning such plans.**

"Niles: There are no recreation facilities in the community with the exception of school grounds which are made available for the children's use. There is no supervisor on the grounds."

**The committee recommended construction of swimming pools at each high school.**

A summary of the area concludes:

"Washington Township is undergoing a transition from a rural to an urban area, and from large farms to an industrial community. This change has created a problem when it comes to the joint development of recreation programs and services.

"There is considerable rivalry between the various communities in the township. In the development of any sort of total recreation program, these differences of opinion must be considered. There has been much discussion about the development of a recreation district, but a considerable difference of opinion exists among residents of the area as to whether this should be done.

**"It is recommended that the public authorities and civic organizations in Washington Township consider the formation of a park, recreation and parkway district, including the proposals now being discussed in Newark. Establishing such a district would make possible the provision of recreation facilities in all communities and centers of population. In the event that an agreement to form a township-wide district is not possible, it is recommended that the Newark Recreation District be formed."**

# KLEINE'S TAKES AMERICAN FORGE, 10-9, IN 12 INNINGS; OUTFIELDER TAKES HEADER

By BOB HIRD

Kleine's did it again Monday when the Softball League pace-setters squeezed across a freak run in the bottom of the twelfth inning to edge American Forge 10-9.

It was the longest-played contest of the year.

The unusual play occurred in the twelfth when Weldon Pine slashed a low liner to left field with the bags loaded. The Forgemen's left fielder, Ross Pugmire, came flying in and made a beautiful shoe-string catch. But in spearing the horsehide, Pugmire fell, injured his shoulder and was unable to hold the ball.

**Frank Mayer, the chief umpire, ruled that Pugmire had caught the ball, but did not hold possession of it long enough. Therefore he gave Pine a base hit.**

Later x-rays of Pugmire's shoulder showed he had dislocated a joint and injured some muscles.

The Centervillers got off to a fast start and battered Pitcher Feleciano Galvan for five runs in the first panel. Weldon Pine and Barney Bragg doubled in the inning.

**The Forgemen bounced back in the second and scored four times on four hits. Tom Pugmire tripled in the inning.**

Forge took the lead in the third as they scored twice on a walk, a two-bagger by Joe Urrutia and a single by Tom Pugmire.

Urrutia then gave them a 7-5 lead in the fifth with a home run.

Kleine's took the lead again, scoring twice in both the fifth and sixth innings.

**Joe Galvan singled to open the seventh with the Iron Men trailing 9-7. Urrutia followed with his third extra-base blow, this time a double. Then Right Fielder Rudy Vera sent a single to left field to tie up the contest.**

The Forgemen had chances in the ninth and twelfth but couldn't push the runners across.

**Friday night's contest between V.F.W. and U. S. Pipe was forfeited by U. S. Pipe.**

# L & V TAKES 2D SPOT WITH 8 TO 3 WIN OVER V. F. W.

Behind the three-hit pitching of Ralph Villescaz and John Rodrigues, and the clutch hitting of Bud Bettencourt, L&V softballers routed Irvington's Veterans of Foreign Wars Wednesday night, 8-3.

**As a result of the win, L&V cinched second place in the final standings, while the Vets slipped to third spot.**

L&V iced the contest in the second frame when, trailing 2-1, Bettencourt slashed out a bases-loaded triple.

Villescaz hurled the first five frames and gave up only one hit in earning his sixth win of the year. Rodrigues threw the last two innings and allowed the Vets two safeties.

**Carl Anderson, the Vets control artist, in this game walked seven and fanned only four.**

Next Wednesday the Township League playoffs will begin, and two games will be played.

The first game will be between L&V and American Forge and the second between VFW and Olwell.

The playoffs will not be a series. Each game will be "sudden death."

## FIRE NEAR NEWARK BURNS 20 ACRES

A grass fire which started from burning rubbish swept over 20 acres of pasture south of Newark Monday afternoon before it was brought under control.

"One of the hottest I've ever seen," pronounced Newark's assistant fire chief, Louis Caldeira. He said the department's two trucks had to refill tanks before extinguishing the blaze, which was centralized at Cherry and Mowry Road on property leased by Frank Borghi.

The Centerville department was summoned to the blaze but was misdirected somewhere along the line.

## ASK WARNING ON STREET CHANGES

Any further monkeying with streets in Washington Township by county authorities should be preceded by ample information on the local level, the Newark Chamber of Commerce this week warned the Board of Supervisors.

**Chamber members professed ire over closing part of Mulberry Street by a subdivider without, according to the Chamber, any notice to the civic body.**

E. C. Hodges demanded a resolution addressed to the supervisors requesting "written notice of proposed changes or abandonments be addressed to Chambers of Commerce in areas affected." The measure then was adopted.

**Gordon Cotton said he habitually checks with the County Planning Commission on such matters, but had not been told about Mulberry Street."**

President Ken Foster recalled what he said was a "promise" given by Supervisor Chester Stanley several years ago when Dairy Avenue was closed that the action would not be repeated without adequate notice to the Chamber of Commerce involved.

### Rotary Chief Coming

Niles Rotarians this week prepared for the official visit of their district governor, Otto Hieb of Berkeley.

Hieb will be honored at next Thursday's luncheon session, and a full attendance is urged, according to Niles President Clifford K. Dennis.

## FIVE HELD FOR NILES KNIFING

Five youths aged between 15 and 16 were turned over to juvenile authorities last week as suspects in the knifing, two weeks ago, of three men on a Niles street.

The youths' names were withheld, but Sheriff's Captain Richard Condon said they admitted fighting with the three men outside a public dance, though they denied using knives.

The victims, Marine Pfc. Dan Lindsey, Joseph M. Hernandez and Lorenzo Quesada, were severely cut in the fray.

## NEWARK CC HAILS FIRE COMMISSION

Newark's fire commissioners got a verbal pat on the back this week from their Chamber of Commerce for their stand against permitting annexation of a strip of Newark Fire District territory to Centerville.

**Commendation for "preserving the integrity of the Newark Fire District from encroachment" came after a motion by William Hildebrand.**

The commissioners recently refused to relinquish a 500-foot strip of land bordering Blacow Road. Some residents in the area had asked to go over to Centerville.

**Honoring the three commissioners and Newark's 19 firemen —regular and volunteer — the Chamber decided to ask them all to a barbecue. Date for the party tentatively was set for September 22. Hildebrand, Jack MacGregor, Vince Kaehler and Cline Hayward were named to a committee on arrangements.**

Individual members gave the department high praise as "the fastest and best of any in a town this size."

### Transit Study?

Howard Buschke and Gordon Cotton have been named to compile statistics and escort members of the Bay Area Rapid Transit Commission around Newark.

Newark Chamber President Ken Foster named Buscrke and Cotton after receipt of a letter from the transit investigators asking for data on population, zoning and public transportation, and advising that engineers will be in the area shortly.

## Weibel Wins Awards

Weibel Champagne Vineyards of Mission San Jose won six separate honors in the California State Fair's annual Wine Show, which concluded last Sunday.

The local vineyard won a silver medal in the Cabernet or Cabernet Sauvignon class, and honorable mentions for its sweet champagne (bulk-fermented), its red or black muscatel, its demi-sec bottle-fermented champagne, its dry sauterne, and its sparkling malavasia. The latter was designated a special award.

Vinters from all over the state competed at the show, which is rated America's top wine-judging contest.

## TV NEWS

By WES SEARS

The lifting of the "freeze" on new television stations by the FCC has prompted a host of questions by the average TV viewer and the expression of some concern as to whether or not to hold off buying a set until later.

By no means. First of all, our present television is now broadcast on 12 channels known as VHF or very high frequency. There just simply isn't enough room on these channels for all the stations that are wanted so new channels were opened up in the UHF or Ultra High Frequency wavelengths; this will make it possible to have 2,053 stations in 1,291 communities.

Present-day sets will not be obsolete. Not only will present stations continue on the VHF but sets being made now are adaptable to the new frequencies by a simple tuning strip (about the size of a cigarette which can be installed cheaply in a matter of minutes) or a simple converter.

And if another argument is necessary, it will be years before all these new stations on UHF are in operation.

Along this same line . . . here's another slant on the Soviet's claim to "inventing" television. If they did they're not doing so well developing it. The country has only 60,000 TV sets for the 194 million population and there are TV stations in only three cities—Moscow, Leningrad and Giev. Programs don't go on until 8 p.m. and there is no daytime programming with the exception of a few hours on Sunday.

MOURNER'S BENCH? . . . Sleeping beauties? Well, could be. According to the experts they are asleep . . . but quite a different kind of sleep from that we usually fall into at night. The type pictured above is known as Hypnotic Sleep, and was induced on the group by "The Great Toussaint," who is scheduled to make a stage appearance here at the Niles Theater with his "Bedlam of Terrors," on September 1.

## NEWARKERS BACK RECREATION HALL

Backing of the Newark Chamber of Commerce and the town's recreation committee was accorded this week to a petition of Arthur W. Cotton to permit a recreation hall at Thornton and Birch.

Cotton sought a use-permit from the County Planning Commission for the property next to the Pentecostal Church, saying he intends to move an old school building there and rent it for club and group meetings.

William Hildebrand volunteered to carry the favorable actions to the commission this week.

## RECREATION AND THE SCHOOL

Plenty of tough meat is contained in a survey just released by the Alameda County Delinquency Prevention Committee, a group of citizens which wants to prevent a repetition of San Leandro's post-war youth troubles in Washington and neighborhood townships.

Some of the gristliest chewing can be found in the report of a subcommittee on recreation. Little if any attempts to organize recreation for youth were found in this area. The committee didn't say so, but the implication was strong that serious delinquency problems may follow a lack of planned play and hobbies for youngsters. The recent knifings by 15-and-16-year-olds in Niles point to the possibility that already the problem is upon us.

The committee recommended that (1) the Township follow Newark's example and try to organize a tax-supported recreation district, or (2) that Newark go ahead if the Township isn't interested, or (3) that school boards authorize the permissible 5-cent tax for development of recreation services and programs.

The school tax might prove the most popular hereabouts. Schools usually have a staff of competent personnel trained in how to teach sports and organized play. Utilization of this staff in after-school hours—on a paid basis—would mean that most of the administrative expense of a separate district would be eliminated. School plants readily lend themselves to recreation, properly supervised.

Now is the time for school boards to start considering this matter. A school-administered community recreation program would be a welcome addition to any of our Township towns. And the dividends in curbing footloose and mischievous youngsters and guiding them in healthy channels would pay a host of dividends.

## MYSTERY MAN HAD FIRST GLIDER

**What was the clue that revealed to you that last week's "mystery" man was Charles Wauhab of Centerville?**

**This week we have another mystery man who has long been identified with township activities. If you can't guess who he is, turn through the pages of the Register. You will find the answer.**

He was born in San Francisco, the son of a restaurateur.

During the 1906 earthquake and fire, his family lost their large home on Lombard Street, and all of their possessions.

They went to Daly City as refugees. Fortunately, the father had sold his restaurant business only a week before the quake. He (the father) had known P. C. Hansen in Denmark, where both were born. So he got in touch with Hansen, living in Centerville, and Hansen persuaded him to bring his family over here.

Our young hero went to Centerville elementary and high school.

He was an ambitious young man, and started the business, from which he retired 40 years later, in 1911.

It was also in 1911 that he and Tony Clark (now a painting contractor in Centerville) built the first biplane glider ever seen in this area. In one of the flights Clark crashed in the glider and injured his leg. This resulted in the boys' fathers burning the glider, as a deterrent against further injury.

He was in the Navy during the first World War, and sailed to South American ports as well as on the high seas in the Pacific and Atlantic. He was advanced to chief petty officer.

He returned to the township, resumed his business, and married a girl who was a nurse in this district. Their marriage took place in 1921.

Later activities included the buying and operating of a large stock ranch, although this did not take the place of his regular business.

He has owned many hundreds of acres of land here. Since his retirement from business, he has sold most of his land, however, and now retains only a hundred acres.

He has always been a sportsman, managing somehow to squeeze in duck-hunting and deer-hunting trips between his strenuous work hours. He has a cabin cruiser which permits him to fish in the waters of the San Joaquin.

He and his wife are very fond of traveling, and are looking forward to doing more and more of it, now that he has retired.

Guess who!

William A. Richardson, harbormaster, erected the first dwelling in San Francisco in 1835.

### Dinner Party

Mr. and Mrs. Jud Taylor of Newark hosted a dinner party last Saturday night with the following guests present: Mmes. and Messrs. Clyde Voorhees, Stebler Loze, Dwight Thornburg, Arthur Belshaw, Sherwood Astin, Dr. and Mrs. E. M. Grimmer Jr. and Dr. and Mrs. Merle Buehler.

### Dinner Guests

Mr. and Mrs. Ed O'Mara of Newark have invited the following guests to a dinner party Saturday night: the Tom Robbins of Niles, the Clifford Johnsons of Atherton, and the Maurice Marks of Mission San Jose.

### Returns from Portland

### Lions Lay Plans

On Tuesday before the Centerville Lions Club at the International Kitchen, a representative from the Matson Navigation Company of San Francisco will present a film entitled "A Letter from Hawaii," Arthur Belshaw, program chairman, announced at the directors meeting Monday.

Belshaw also announced the Club's annual picnic will be a chicken barbecue at the Old Hearst Ranch Saturday, September 13.

Kenneth Berg was appointed to the board to fill the vacancy created when Jack Coley recently moved to San Jose.

Plans were made to revive the monthy bulletin, "Den Notes." A member from each town will be appointed to act as reporter.

## BAD CHECKS JAIL HAYWARDER HERE

A 26-year old Hayward man was arrested in his home last night by local authorities and charged with passing some $600 worth of bad checks in this area.

Jailed was Michael Marro Jr., who was picked up by Lt. L. R. Creighton. The officer said Marro is on probation on a similar conviction.

### WOMEN'S GROUP PLANS MEETING

All women who are interested in better government for their communities, state and nation, are cordially invited to attend. The group is strictly non-partisan.

## Thinking Things Over . . :

By VIVIAN BATMAN

### SIDEWALK CAFE

I get a little confused when I go to work every morning. I am not quite sure whether I am in Niles or in Paris.

You may wonder how I could ever confuse Niles with a big city in France.

It's the front of The Register office that does it. The Register not only sports a new green awning, but has also blossomed out with four potted trees placed there by the California Nursery.

All it needs now is couple of little tables, some Vienna chairs painted white and—voila! Garcon, bringez-moi an aperitif!

Just shows what a little paint, a new awning, and a few plants can do.

### TV APPETITES

I have found that it isn't the initial expense on television, but the upkeep. And by that I don't mean what you think I mean.

It's keeping up with the food bills that is getting me.

This is the way it works: a woman comes on the screen, opens up a jar of peanut butter, starts spreading the peanut butter on the bread, all the time telling you how good it is.

I look around our TV room. Suddenly it is empty.

Pretty soon they come back, however, with thick slices of bread and peanut butter.

If the woman does this commercial three times during the program, there goes a whole loaf of bread and a half jar of peanut butter.

Say that this peanut butter is followed by a program sponsored by Creaking Crunchies, which in turn, is followed by the Slurp 'N Burp soda pop program, it all adds up to one terrific food bill in the short space of an hour and a half.

If they're going to make these TV commercials so irresistible, I wish they'd concentrate on—well—face soap. Or soap powder.

Think how wonderful it would be to see a boy so moved by a commercial that he would get up from a program and start washing dishes!

Then—and then only—could you call the TV commercial a true delight.

## M. S. J. Tract Sold

A fifty-home subdivision in Mission San Jose found itself sold-out this week, according to Richard Lincoln, its developer.

Lincoln said he has sold virtually every one of the 50 G.I. homes, located on the Irvington Road. The residences are now in the process of construction, and were sold from $10,200 to $11,500.

Half the buyers are from Southern Alameda County, Lincoln said, with most of the remainder coming from Oakland, Hayward and San Leandro.
